

SARS - Project Structure

Page 1 of 2 - Server - Backend

Express + MongoDB - controllers, routes, models, services

server/

```
|-- server.js          entry point - mounts all /api routes, CORS, helmet, rate-limits
|-- .env / .env.example environment config (+ example)
|-- .gitignore vercel.json package.json package-lock.json README.md
|-- config/
|   |-- db.js          MongoDB connection
|-- models/           10 Mongoose schemas
|   |-- Admin.js Application.js AuditLog.js Batch.js
|   |-- Course.js CourseCategory.js Payment.js PaymentConfig.js
|   |-- ProgramLevel.js Student.js
|-- controllers/      11 resource controllers (business logic)
|   |-- adminController.js applicationController.js authController.js
|   |-- batchController.js courseCategoryController.js courseController.js
|   |-- paymentConfigController.js programLevelController.js
|   |-- registrationController.js reportController.js
|   |-- studentDashboardController.js
|-- routes/           12 Express routers
|   |-- admin.js application.js auth.js batch.js course.js
|   |-- courseCategory.js lead.js paymentConfig.js programLevel.js
|   |-- registration.js report.js studentDashboard.js
|-- middlewares/
|   |-- auth.js        JWT authentication + role authorization
|   |-- errorHandler.js
|-- services/         7 integrations
|   |-- authService.js cloudinaryService.js emailService.js
|   |-- pdfService.js smsService.js
|   |-- whatsappService.js
|-- utils/
|   |-- AppError.js    custom API error
|   |-- seed.js        seed script (dev)
```

Page 2 of 2 - Client - Frontend

React + Vite + Tailwind - pages, components, context, services

client/

```
|-- index.html          root HTML - title, fonts, Material Symbols
|-- vite.config.js      dev server (port 3000)
|-- tailwind.config.js  design tokens (colors, typography)
|-- package.json  package-lock.json  README.md
|-- public/
|   |-- favicon.svg  icons.svg
|-- src/
|   |-- main.jsx      React entry point
|   |-- App.jsx       all routes
|   |-- index.css     global styles
|   |-- assets/       hero.png  react.svg  vite.svg
|   |-- components/
|       |-- ProtectedRoute.jsx
|       |-- ui/        9 primitives: Badge, Button, Card, ConfirmDialog,
|                       Input, Modal, ProgressBar, Select, Spinner
|   |-- context/
|       |-- AuthContext.jsx
|   |-- layouts/
|       |-- AdminLayout.jsx
|   |-- pages/
|       |-- admin/     7: CourseManagement, Login, Overview, PaymentVerification,
|                       Reports, Settings, StudentManagement
|       |-- public/    6: Confirmation, DraftSaved, Landing, RegistrationStep1,
|                       RegistrationStep2, StudentLogin
|       |-- student/   1: Dashboard
|-- services/
    |-- api.js         axios instance + authenticated blob download helper
```
